## HEALTHCARE ARCHITECTS

### POSITION DESCRIPTION

---

#### DESCRIPTION

Marshall Craft Associates is seeking several Healthcare Architects to join our team of talented professionals. MCA offers collaboration on all aspects of the design process with a diverse peer group and experienced mentors in a creative, team-centered environment, working on a variety of project types for significant academic, cultural, healthcare, corporate, and government clients. We are seeking professionals who are passionate about healthcare architecture in their career development.

Headquartered in great space within the Baltimore Clipper Mill arts community, and with offices in Richmond, VA, and York, PA we offer career opportunities for motivated, professionals seeking to help shape a dynamic practice that thrives on communication and collaboration. We foster a friendly work environment that supports mentorship, continued education & training, and enhanced growth opportunities to maximize individual potential. We strive to create and maintain a stimulating, fulfilling workplace and are committed to sustainability, creativity, performance, and the highest levels of professional service. An Equal Opportunity Employer, we provide a highly competitive benefits & compensation package, and life-work balance. Salary commensurate with experience.

#### QUALIFICATIONS

Ideal candidates will have:

- B. Arch or M. Arch degree from an accredited program
- 5 -10+ years of architectural experience, healthcare-specific is a plus
- Proficiency in Revit is required; proficiency in AutoCAD is a plus
- Current/imminent registration or enrollment in NCARB IDP is required, LEED or WELL credentials is a plus

Please submit your cover letter, resume with salary requirements, references, and portfolio to Michelle Hooper at [info@mca.design](mailto:info@mca.design). No phone calls, please.
